

IFA Rotorion – Powertrain belongs to IFA Rotorion – Holding GmbH, one of the leading suppliers of subassemblies for the automotive industry, offering each client unique and customised solutions. We cooperate with such leading automotive companies as Daimler, VW, BMW, GM, Chrysler, Audi, Porsche, Ford and Ferrari. We supply what is the best.

The passion, commitment to work and ideas of our 2300 employees constitute a basis for our innovations and modern technologies. Thanks to this, we help to shape the future of the automotive industry and are able to react to our customers' future needs.

As IFA Rotorion – Holding GmbH we conduct business activities in Germany (with the headquarters in Haldensleben) and USA – in Charleston, and Asia – in Shanghai.

In connection with our further development, we are building a production plant in Poland – in the community of Ujazd in the Opolskie voivodship.

IFA Powertrain Polska will manufacture propshafts for the Daimler Group.

CNC Operator

Place of work: Zimna Wódka/community of Ujazd

The key responsibilities at this position are the following:

- preparation and tooling up of CNC lathes together with automation (turning, milling, hardening, grinding, rolling),
- numerical operation of lathes, preparation of machines for work based, among others, on the Bosch-Rextroth MTX, Siemens 8400 DSL control systems,
- preparation of parts, materials and tools for the machining process,
- controlling the machining process with respect to quality (elimination of defects, assurance of proper parametrisation of machines),
- organisation and performance of maintenance works on machinery and equipment,
- preparation of reports on machinery-related measurements,
- close cooperation with the production team: helpers, leaders, as well as the quality and maintenance departments.

From candidates, we expect the following:

- at least vocational education, preferably in CNC machining,
- knowledge of technical drawings,
- ability to analyse and solve technical problems,
- practice in preparation of lathes for operation,
- good discipline at work and orientation towards quality of performed tasks,
- orientation towards team work,
- dynamism, efficiency, and commitment,
- openness to new challenges and high motivation to work,
- readiness to work in a shift work system,
- readiness to participate in a training programme in Germany in the first period of employment.

Would you like to participate in building this organisation from scratch and acquire new skills and qualifications? Is mutual respect among employees as important for you as stability of employment in a reputable company?

If so, why don't you join us?

At the beginning we offer: a contract of employment, a basic salary and private medical care.
