

IFA Rotorion – Powertrain belongs to IFA Rotorion – Holding GmbH, one of the leading suppliers of subassemblies for the automotive industry, offering each client unique and customised solutions. We cooperate with such leading automotive companies as Daimler, VW, BMW, GM, Chrysler, Audi, Porsche, Ford and Ferrari. We supply what is the best.

The passion, commitment to work and ideas of our 2300 employees constitute a basis for our innovations and modern technologies. Thanks to this, we help to shape the future of the automotive industry and are able to react to our customers' future needs.

As IFA Rotorion – Holding GmbH we conduct business activities in Germany (with the headquarters in Haldensleben) and USA – in Charleston, and Asia – in Shanghai.

In connection with our further development, we are building a production plant in Poland – in the community of Ujazd in the Opolskie voivodship.

IFA Powertrain Polska will manufacture propshafts for the Daimler Group.

Logistics Planner

Place of work: Zimna Wódka/community of Ujazd

The key responsibilities at this position are the following:

- management of partial projects within the scope of the product development process (PDP) based on project management methods,
- coordination of all activities in order to secure PDP in the logistics area,
- analyses, planning and execution of logistic concepts in the case of new projects (logistic calculations, assessment of logistic concept variants, determination and approval of customers' requirements with respect to suppliers, planning of transport containers in cooperation with customers and all other involved parties),
- introduction of new products into series: planning, defining, implementation and continual optimisation of production supplies sourcing concepts/areas, management of logistic documentation, analysis of logistic KPI,
- **monitoring of batch production:** optimisation of logistic structures and processes, planning of investments, mapping of value streams.

From candidates, we expect the following:

- higher education (management and production engineering with specialisation in logistics, materials management or supply chain management),
- at least 2-3 years' experience at a similar position,
- practical knowledge of warehouse operation, especially in the area of internal logistics
- knowledge of English ensuring effective communication,
- self-reliance and reliability,
- analytical approach and ability to deal with large quantities of data,
- practical knowledge of the SAP system,
- orientation towards team work, ability to build relationships at various organisational levels,
- dynamism, efficiency, and commitment,
- readiness to participate in a training programme in Germany in the first period of employment.

Would you like to participate in building this organisation from scratch and acquire new skills and qualifications? Is mutual respect among employees as important for you as stability of employment in a reputable company?

If so, why don't you join us?

At the beginning we offer: a contract of employment, a basic salary and private medical care.
